* The fund value will be fully invested in Nifty 50. A small portion (up to 2%) may be kept in cash for administrative reasons (i.e. small inflows in a day making it economically unviable to invest in the index on that day)

6.3 Investment Objectives of the Investment Funds

Pension Secure Fund: This fund will aim to invest in a diversified portfolio of debt and money market instruments of short to medium term maturities. The main objective will be to generate investment income with very low volatility risk since asset durations would be reasonable small.

Pension Debt Fund: This fund will aim to generate attractive investment income by taking interest rate views and investing in a diversified portfolio of government debt, corporate debt and money market instrument of varying maturities.

Pension Balanced Fund: The objective of this fund is to protect the capital value of the fund and providing attractive returns to the policyholder in the long run.

The Company may from time to time change the asset portfolio allocation in the existing Investment Funds with the approval of the IRDA.

6.4 Investment Fund Valuation

The valuation of assets under each Investment Fund shall be made as per the valuation norms prescribed by the Company and the IRDA.

The Company is aiming to value the Investment Funds on each day of the operation of the financial markets. The Company however, reserves the right to value less frequently in extreme circumstances, where the value of the assets may be subject to extreme volatility and uncertainty. In such circumstances the Company may defer valuation of assets until normalcy returns. Examples of such circumstances are:

- a) When one or more stock exchanges which provide a basis for valuation for a substantial portion of the assets of the Fund are closed other than for normal holidays.
- b) When, as a result of political, economic, monetary or any circumstances out of the control of the Company, the disposal of the assets of the Investment Fund are not reasonable or would not reasonably be practicable without being detrimental to the interests of the remaining Policyholders invested in the Investment Fund;
- c) During periods of extreme volatility of capital markets during which surrenders and switches would, in our opinion, be detrimental to the interests of the existing Policyholders sharing the same Investment Fund option;
- d) In case of natural calamities, strikes, war, civil unrest and riots;
- e) In event of any force majeure or disaster that affects our normal functioning;
- f) If so directed by the IRDA.

The Company reserves the right to close/modify any Investment Fund at any time by giving a three month written notice of its intention to close/modify the Investment Fund and from the date of such closure/modification the Company will cease to create or cancel Units in the said Investment Fund ("Closing Investment Fund"). Closure/Modification of an Investment Fund will be on the happening of an event which in the sole opinion of the Company requires the said Investment Fund to be closed/modified and such closure/modification of an investment fund shall be subject to prior approval of IRDA. The Company will require the Policyholder who has invested in the Closing Investment Fund to replace it with another Investment Fund/s ("Replacing Investment Fund") in the format specified by the Company and before the date specified in the written notice of the Company. Upon receiving your confirmation, units in the Closing Investment Fund allocated to this Policy will be cancelled on the last Valuation Date of the Closing Investment Fund. The Company will create Units in the Replacing Investment Fund/s, with proceeds from the cancellation of the Units in the Closing Investment Fund on the last Valuation Date of the Closing Investment Fund.

If the Company has not received the confirmation as above from you for modification of your Investment Fund allocation before the closure of the Investment Fund, the Company will:

- Switch your funds from the Closing Investment Fund to the most conservative Investment Fund then available; and
- Change your Allocation Proportion in such a way that the percentage of allocation of premium to the Closing Investment Fund is added to the percentage allocated to the most conservative Investment Fund option then available. Currently the most conservative Investment Fund option is Secure Fund. The Company would however declare the most conservative Investment Fund option from time to time depending upon its then current Investment profile.

You are entitled to make four Switches per Policy Year free of charge. Every additional Switch in a Policy Year would be subject to a charge as specified in Clause 10.

7. Units

7.1 Creation of Units

The Units shall be created based on the Unit Price. Units will be created in the Investment Fund/s on receipt by the Company of the Policy Premium (except First Premium) along with a local cheque / demand draft payable at par at the place where the premium/application for switch is accepted by Us on the following basis: The same day's closing Unit Price shall be applicable if received before the Cut-off time (the "Same Day"). The next day's closing Unit Price shall be applicable if received after the Cut-off time (the "Next Day"). In respect of Policy Premiums (except First Premium) received with outstation cheques/demand drafts at the place where the premium is accepted by us, the closing unit price of the day on which cheques / demand draft is realised shall be applicable. In respect of First Premium, the applicable Unit Price will be of the Policy Date or date of realisation of the amount by the Company, whichever is later. If the Same Day or the Next Day or the due date of the installment premium is not a Valuation Date, then the Company shall apply the Unit Price of the next immediate Valuation Date.

7.2 Cancellation of Units

Units will be cancelled from the Investment Funds, when an application (including in respect of claims, surrender, vesting, switch, partial withdrawal) is received by the Company:

Before the Cut-off time, at the same day's closing Unit Price shall be applicable (the "Same Day").

After the Cut-off time, at the next day's closing Unit Price shall be applicable (the "Next Day").

If the Same Day or the Next Day or the due date of the installment premium is not a Valuation Date, then the Company shall apply the Unit Price of the next immediate Valuation Date.

Under extraordinary circumstances, such as extreme volatility of the value of the investments of the Investment Funds the Company may delay cancellation of Units from an Investment Fund if it is necessary to do so in order to maintain fairness and equity between Policyholders remaining in that Investment Fund and the Policyholders leaving that Investment Fund. Where this applies, the Company may delay cancellation of all or part of the Investment Funds for up to 30 days. If the Company delays the cancellation, the Company will apply the Unit Prices of the day on which the cancellation actually takes place.
